## EXPERIENCE

### FRONT-END DEVELOPER / EY

09/2020 – 04/2022

Over one year of experience in Front-end development, working on building apps for two EY's client. Using especially Agile Methodology, Angular, Ionic Framework and REST API. Spent 3 months helping to build a new app to Neoenergia, which is the largest private group in the electricity sector in number of customers and impacts over 500 thousand users. Worked for 9 months on Vale S.A. as an outsourced. Vale is the largest producer of iron and nickel in the world. There, had the opportunity to implement a calendar application to manage the appointments of Vale's leaders along with the product team. The last project was an EY internal project using selenium and Python for automation.

### SCIENTIFIC INITIATION / CEFET/RJ

08/2019 – 11/2019

Worked at college with a Scientific Initiation scholarship on Multisensorial books and Audio books. The job was to do research on academic websites and read relational articles. Therefore, could create a scientific article about those types of books and how they could be beneficial to other people. In result, realized that they have great benefits for children of reading learning age and autistic people to better understand the reading.

## EDUCATION

### ENROLLED IN A BACHELOR'S DEGREE IN COMPUTER SCIENCE / 02/2018 – 12/2022

CEFET/RJ - Centro Federal de Educação Tecnológica Celso Suckow da Fonseca

### AZURE FUNDAMENTALS / 03/2021

#### MICROSOFT CERTIFICATION

Foundational level knowledge of cloud services and how those services are provided with Microsoft Azure.

### AZURE AI FUNDAMENTALS / 02/2022

Foundational knowledge of machine learning (ML) and artificial intelligence (AI) concepts and related Microsoft Azure services.

## VOLUNTEER EXPERIENCE OR LEADERSHIP

Have worked as a volunteer computer teacher at an institution called Instituto LAR (Home Institute) for 3 months. It is an Institution that helps homeless and former homeless people get off the streets to have a dignified life. Worked teaching how to use a computer to those who have never had a chance to learn it before. Was able to identify the students' weakness in order to work with them. It encouraged them to put effort into learning and more easily deal with technological devices.
